AMBASSADORS OF SURF-PUNK FROM ALL CORNERS OF NAARM.

Stimpies' music and aesthetic embodies an exploration of the Australian lifestyle, the burn of the seatbelt getting into your car in 45 degree weather, the refreshing and repetitious comfort of wave after wave at the beach.

We're a four-piece surf-punk band making shit house noise, made up of drummer and backing vocalist *Ethan Robins*, bassist *Bec Wigg*, lead guitar and lead vocalist *Ned McKenna* and guitarist *Xavier Ambrosius*.

We decided to start the band in early 2019, releasing our self-titled EP by December of the same year, along with a sold out launch at Wrangler Studios. Come January 2020, we played Exude Group's own *U:Time Festival* and a bushfire benefit concert at The Gasometer Upstairs with local legends *The Grogans*, following that with a Pure Nowhere show with *The Belair Lip Bombs* and *Velvet Bloom*. We recently joined *Kingswood* on their VIC tour closing out 2021.
